

Subject: Complaint Regarding Restaurant Kitchen Chimney Exhaust Facing Residential Windows

Respected Sir/Madam,

I am writing to formally lodge a complaint regarding a serious environmental and public health nuisance caused by restaurants operating in our vicinity.

I am Subhasis Biswas, a resident of **Nupur Apartment, located at 1/36/A Jatindas nagar, Belgharia 700056, Ward No. 34, near Belgharia Jatindas Vidyamandir Boys**, and I would like to bring to your attention that a restaurant beside (Right side) of Nupur Apartment is installing their Restaurant kitchen chimney exhaust outlets in such a way that they directly face the windows of our residential flats of Nupur Apartment.

This setup is causing multiple problems, including:

1. **Air Pollution:** The chimneys emit smoke, oil vapors, and strong cooking odors that enter directly into our living spaces, creating an unhealthy environment.
2. **Health Hazards:** The constant exposure to smoke and fumes is affecting the health of the residents, especially children, elderly individuals, and those with respiratory conditions.
3. **Noise Pollution:** The chimneys and exhaust systems often run for long hours and produce significant noise, causing further disturbance.
4. **Violation of Norms:** We believe that this configuration may be in violation of local building codes and environmental regulations regarding commercial exhaust systems near residential areas.

We kindly urge the municipal authorities to inspect the premises of these restaurants and ensure the following:

- **The exhaust outlets are redirected away from residential windows and should be facing towards the road.**
- Adequate filtration and treatment mechanisms are installed to reduce emissions.
- Strict adherence to environmental and safety norms as per municipal guidelines.

We trust that the municipality will take appropriate and swift action to resolve this matter and safeguard the well-being of residents in the area.

Looking forward to your prompt response.
