

Address to the Citizen Message for “e” news

We have just completed the oath taking ceremony and I was elected as Chairman of 2nd Occasion after a huge victory by winning 30 wards out of 35 with your support. It is our great pride that we create history by defeating leftists after 45 years. On the other hand it is a worry to us to serve our citizens according to their demands within our capacity, in the face of their rising expectations. At this auspicious moment I like to assure our citizens that our town becomes “Clean City” in our state and to supply treated water at the remotest corner of the wards. I think it is our prime duty to our citizens. But our challenge is not only to reduce the water logging in monsoon but to eliminate the same. Our State Govt. headed by Smt. Mamata Banerjee, Chief Minister of West Bengal

CHAIRMAN
Kamarhati Municipality

always encourages for beautification of road side as well as the ponds. We have started the program in front of our office building and it will be extended to the ward level and it will also cover the security and safety of the pedestrian. Our goal is to construct footpaths with little more beautification. All development/ services will be provided if you extend your co-operation / suggestion to us, then we will reach actual development or improve our services for our citizens.
